“Enhanced Vision has an amazing ability to produce quality products that really meet the needs of Low Vision people in the real world. Their products are effective and set the standard for affordability. I whole heartedly applaud their great contribution to the field of Low Vision Rehabilitation.”

“My patients say that your products offer more features than any other they've tried such as portability, brightness and freeze frame options. It's not easy to design products outside of the standard optical magnifiers but Enhanced Vision continues to do a great job - offering low vision solutions at an affordable price.”

Donald C. Fletcher, M.D., Director, Center for Low Vision Rehabilitation at California Pacific Medical Center
Senior Scientist at Smith-Kettlewell Eye Research Institute,
Helen Keller Foundation Chair for Research in Low Vision Rehabilitation

Paul Freeman, O.D., Diplomate in Low Vision, Adjunct Faculty, Pennsylvania College of Optometry, Philadelphia
Chief of Low Vision Services, Department of Ophthalmology, Allegheny General Hospital, Pittsburgh, PA

"It's not easy to design products outside of the standard optical magnifiers but Enhanced Vision continues to do a great job. Once again Enhanced Vision has come out with quality low vision solutions at affordable prices."

Sonya M. Braudway, O.D., Director of Low Vision Services at the Center for Retina and Macular Disease

Active Member of the American Academy of Optometry, the American Optometric Association, the Association for Research in Vision and Ophthalmology, the Florida Optometric Association, and the Division of Blind Services.

Enhanced Vision offers the widest selection of affordable, innovative low vision products for use at home or on the go. If you or someone you love is affected by low vision due to macular degeneration, glaucoma, diabetes or other conditions, Enhanced Vision can help.

Pebble

Compact · Ultra-Portable · Lightweight

Pebble's small lightweight design makes it the perfect companion whether you're travelling or at home. Carry **Pebble** in your pocket, purse or strap it onto your belt, the only time you'll know it's there is when you need it!

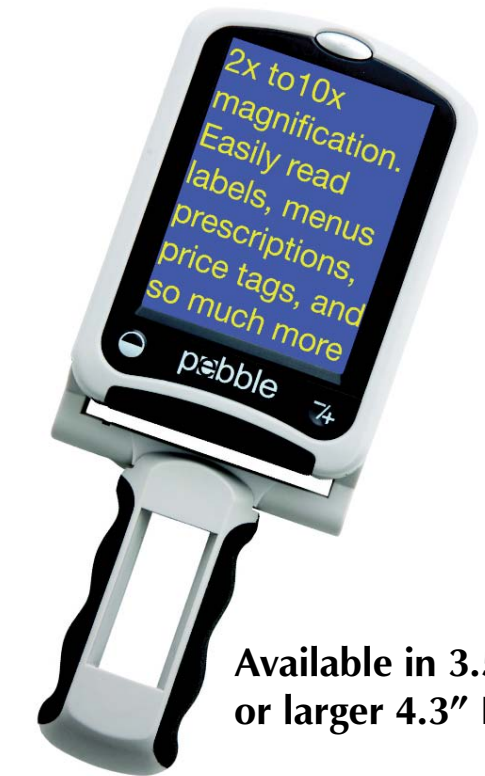

Pebble Features:

- Adjustable magnification of 2x to 10x
- Lightweight design
- 3.5" or 4.3" high resolution LCD
- Large viewing area in a compact design
- Adjustable brightness
- Easy-to-use tactile controls
- 28 available viewing modes
- Freeze image feature with capability to magnify and change mode
- Foldable handle with comfort grip
- Easy writing capability
- Over 2 hours battery life (rechargeable/replaceable batteries included)
- Built in light source with on/off option for reduced glare
- 2 year warranty

Easily read labels, prescriptions, price tags, menus, bus schedules and so much more with this ultra-portable video magnifier.

Acrobat LCD

Writing · Reading · Hobbies · Distance & Self Viewing

It's our most flexible device for seeing at any distance. Just point the camera at what you want to see. Use it up close like a mirror for applying make-up or other personal grooming, or for magnifying things farther away. The **Acrobat LCD** with many built in features is a complete system for use at work, home or school.

Acrobat LCD can help you with all your grooming tasks. 19" or 22" monitor included.

Acrobat LCD Features:

- Auto focus 3-in-1 camera for seeing yourself up close, reading and distance viewing
- True mirror image while in self-viewing mode
- Memory settings for each camera position
- Various arms and positioning options provide maximum flexibility
- Detachable camera for use at multiple workstations
- 19" or 22" monitors provide up to 75x adjustable magnification (varies with LCD size)
- 7 viewing modes to optimize contrast and brightness
- Wrap around dual keypad allows easy access to controls
- Computer compatible (Additional hardware required)
- Optional rolling carrying case for easy transport
- Left-hand mode
- Line markers, object locator, remote control and more
- 2 year warranty

Acrobat LCD makes schoolwork possible again.

Acrobat LCD can help you in business, too.

Rolling Case

Convenient rolling case is available for your Acrobat LCD, making setup and transportation even easier.

Acrobat

Writing · Reading · Hobbies · Distance & Self Viewing

You can configure the **Acrobat** in a variety of ways to meet your specific needs. Connect the unit to a computer monitor or TV. Choose the optional long arm or short arm mount for a custom solution. Multiple arm options offer all of the same features as **Acrobat LCD**.

Acrobat Short Arm

Free-standing short arm is easy to transport and offers great stability. Carrying case included.

(Note: Short arm camera is not interchangeable with any other option.)

Acrobat Long Arm

Longer arm provides flexibility to work on larger projects. Clamps easily to a table or desk.

For your convenience, both options can be connected to either a TV or computer monitor. Please specify when ordering.

The **Acrobat Panel** features an integrated 12" LCD screen in a lightweight package for magnification on-the-go. A built-in rechargeable battery can provide power to the **Acrobat Panel** for over 4 hours, allowing you to read and write wherever you are.

Acrobat Panel*

Featuring a 12" LCD screen integrated with rechargeable battery. Can be used with either the Acrobat long or short arm to provide up to 4 hours of lightweight and portable magnification.

Carrying Cases

Convenient carrying cases are available for your Acrobat in a variety of configurations, making setup and transportation even easier.

X-Y Table Options

X-Y table and Mini X-Y table are available for your Acrobat, place underneath your acrobat camera and make reading even easier!

*Panel options are also available for Flipper (page 16) and Max (page 17). Please contact your local Enhanced Vision distributor for more information.

Merlin

Reading · Writing · Hobbies

Merlin offers the greatest value and picture quality available. Boasting an ergonomic design, this flexible desktop magnifier allows you to pivot and adjust the screen for your most comfortable viewing position.

Merlin Features:

- 19" or 22" LCD monitor
- Fully assembled, one-piece unit is ready to use
- Simple built-in controls move with the screen
- Fast response, high quality LCD for a clear crisp picture
- Screen pivots, tilts and swivels in all directions for your comfort
- Adjustable brightness
- 3 year warranty
- 7 viewing modes to optimize contrast & brightness
- 2.7 to 77x adjustable magnification (varies with LCD screen size)
- Computer compatible with toggle capability (additional hardware required)
- 28 custom programmable color select options available
- Auto focus

Merlin's screen easily pivots vertically and/or horizontally to better accommodate peripheral or eccentric viewing.

Merlin Plus

Computer Compatible · Reading · Writing · Hobbies

Merlin Plus offers all the same features of our standard **Merlin** with the added benefit of full computer connectivity, split screen modes and included feature kit.

Merlin Plus Features:

- All the same features of standard Merlin
- Full computer connectivity
- Split-screen mode
- Horizontal and vertical line markers and windowing modes
- Feature Kit and foot pedal control included

Merlin's Split screen mode lets you view magnified images and the computer simultaneously.

Amigo

Reading · Travel

The **Amigo**, your one of a kind video magnifier on the go, is light and simple to use. Just place it directly on your reading material and adjust the magnification with an easy turn of a dial. Read price tags, menus, medication labels and more any time, any place.

Amigo Features:

- Crisp, high-definition image
- Lightweight and Portable (only 1.3 lbs)
- 3.5x to 14x adjustable magnification
- Large 6.5" anti-glare LCD screen tilts for most comfortable viewing angle
- Large field of view allows the user to see more of the reading area
- Freeze frame with adjustable size and contrast
- Removable 2-hour battery with internal charger (spare battery and external battery charger also included)
- 6 viewing modes to optimize contrast and brightness
- Connects to any TV for increased magnification
- Writing stand and carrying case included
- Also available in black
- 2 year warranty

Flipper

Reading · Writing · Distance Viewing · Travel · Hobbies

Use **Flipper's** rotating camera to perform your daily tasks. Simply rotate it to view magnified images at any distance or to read and write. **Flipper** is lightweight, portable and offers the ultimate in flexibility.

Flipper Panel offers a 12" LCD screen with a 5 hour rechargeable battery pack. Backpack case included.

Flipper Features:

- 225-degree camera rotation
- Combine **Flipper** with a 12" battery operated LCD or connect to any TV
- Compact and fully portable
- Computer and laptop compatible (additional hardware required)
- Distance, intermediate and near viewing
- 6 to 50x adjustable magnification
- True color with auto focus
- 4 viewing modes to optimize contrast and brightness
- Lightweight at just over 1 lb
- Combine **Flipper** with an optional stand to create a desktop magnifier
- 2 year warranty

Max

Reading · Travel

For a powerful and affordable digital magnifier that is simple to use — look no further than **Max**. Use this lightweight, hand-held portable device on any straight or curved surface to magnify any image.

Max is easy to take to work or school and is a handy vacation tool.

Max panel offers a 12" LCD screen with 5 hour rechargeable battery pack. Soft case included.

Max Features:

- 16 to 28x adjustable magnification (20" monitor)
- Combine **Max** with a 12" battery operated LCD or connect to any TV
- Up to 4 viewing modes to optimize contrast and brightness
- Magnifies print or images on any surface – curved or flat
- Lightweight, convenient and easy to use
- Affordably priced
- Computer compatible (Additional hardware required)
- Optional accessories: **MaxTrak** and **Max Writing Stand**
- 2 year warranty

USB Bridge

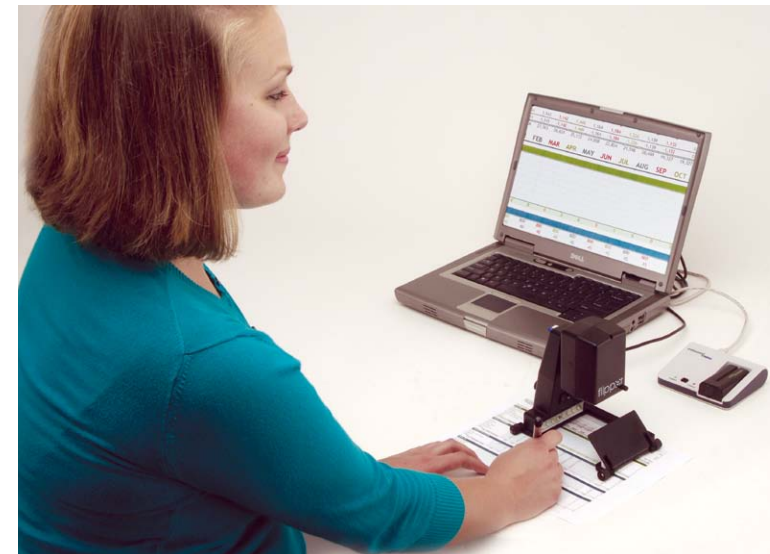

Travel · Laptop Solution · Power Source

The **USB Bridge** provides a battery operated solution for **Acrobat**, **Flipper** and **Max** to be directly connected to a laptop or desktop computer. This portable product provides the freedom to perform tasks anywhere.

USB Bridge Features:

- Modular – Power your **Acrobat**, **Flipper** or **Max** and use with any computer
- Split screen capability – view your computer and camera image simultaneously on a single display
- Simple interface
- Flexibility to configure and re-size the display to optimize viewing preference
- Snapshot function allows you to capture and save images
- Quick change and removable battery eliminates downtime without depleting laptop battery
- 2 to 5 hours of battery life depending on product used
- Removable standard battery with internal charger
- Windows XP, Vista, & 7 compatible (32 & 64 bit)
- Integrates with various popular magnification programs
- Less than 250 grams (including battery)

Customer Testimonials

Merlin: "There is more magic in my Merlin than I could have imagined. I was immediately able to read my mail and bills. I was able to balance my checking account. Merlin gives me a lot of freedom for a legally blind now 83 years young fellow." - Harold Leinbach

Pebble: "The Pebble has given me freedom and independence that a regular magnifier could not. I can see again!" - Michelle Frazier

Amigo: "I have seen many magnifiers and I love the tilt screen and the freeze frame features. The image is excellent and fills the expectations of being bigger and bolder and brighter! I love the fact that it has a large screen and that it comes with a very nice looking carrying case. Enhanced Vision delivered everything and more that I saw in your advertising!" - Dan Roberts, Director, Macular Degeneration Support, Inc. Grandview, MO

enhanced vision Call for a No Obligation Demonstration Today **888-811-3161**

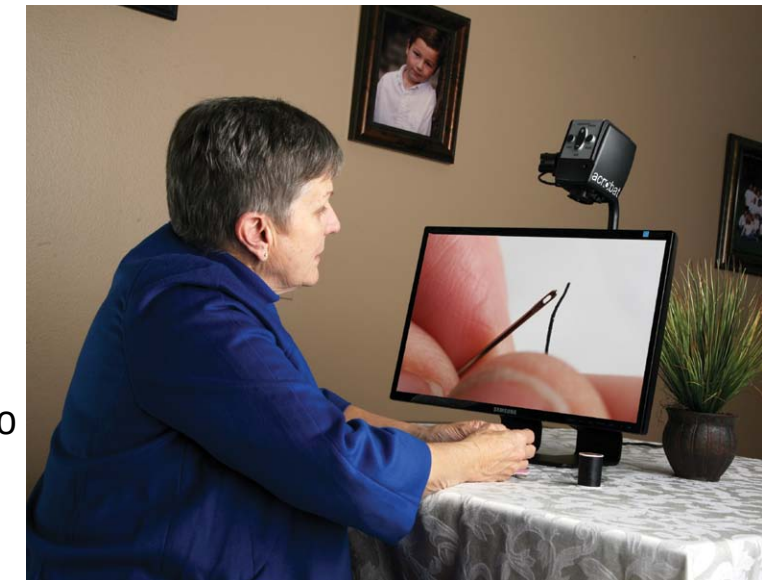

Flipper: "Today I am able to work again with Flipper. The Flipper's rotating camera enables me to perform daily tasks more effectively. By rotating the camera head, I can read, write, and view the titles on the library aisles." - Damian Utkewicz, Cataloger, Princeton Theological Seminary

Max: "My Max has given me the ability to continue working. Without it I would not be able to read technical manuals and keep up with evolving technology." - Peter Bianchi, Network Engineer, Bank of America

Acrobat: "I love my ACROBAT C.C.T.V. system! It has truly given me a new lease on life. I can do things I never dreamed of doing before this miracle. I can read Bible sized print, do more detailed things like tying fishing hooks, and flies. I'm in the process of learning to repair my own tackle, things I used to depend on others to do for me. There's no end to the potential for this wonderful device." - Carrol C. "Red" Myers
