

explorē⁸

THE BIG PICTURE IN A SMALL PACKAGE

More than ever, people with low vision are looking for a powerful yet lightweight tool to help them see clearly in their daily activities. Our latest innovation? The **explorē 8**, a Touchscreen HD handheld magnifier for active people who prefer a large screen but still want maximum portability. It is smaller, lighter and more affordable than most 7-inch magnifiers on the market while providing a screen more than 30% larger, designed to make life easier—and a whole lot clearer.

HumanwareTM

see things. **differently.**

A MAGNIFIER MADE FOR MODERN LIFE

Delivering unmatched image quality, the explorē 8 features two 21-megapixel cameras—one for things less than 15 cm away like documents, books and newspapers, and a second camera for distance viewing away to see things like street and shop signs.

The device boasts the largest screen in the smallest package, designed with the latest technology, innovative features and an easy to use touchscreen for unmatched mobility, comfort and convenience wherever you go.

Lightweight device loaded with next-level features

The explorē 8 may be compact but it packs a powerful punch, with a large Ultra HD screen for easy reading and a host of other cutting-edge features to help keep things in focus when you're on the move.

- The first 8-inch handheld magnifier on the market
- Touchscreen to navigate easily through menus
- Intuitive and easy to use
- HD screen with stunning image quality
- Large physical buttons to adjust magnification and contrast
- Twin Ultra HD cameras with outstanding image quality
- Extra comfort with solid alloy folding stand for reading on tables
- Weight : 580g (1.30 lbs – 20.8 oz)

Cutting-edge design

With its compact design and smart, intuitive features, the explorē 8 is changing the way vision-impaired people experience and interact with the world around them.

- Intuitive touchscreen
- Easy to use with few buttons
- Customisable features like preferred zoom level settings
- Automatic toggle to switch easily between desktop and distance viewing
- Rubberised grip to hold the device
- Solid reading stand that sets up quickly and easily
- Elegant, streamlined design
- Compact and lightweight for life on the go

INTELLIGENT SOFTWARE

The explorē 8 was designed to be as user friendly as it is intelligent, with next-level software made with the mobile user in mind.

HDMI compatible

Fully customisable functions

Easily transfer images to and from a computer

USB C-type quick charge

Can be connected easily to a large screen TV

LED lights power off when device is raised

Auto shutoff after 1, 2, 5 or 10 minutes

Battery life : 4.5 hours

EXPLORING THE WORLD HAS NEVER BEEN EASIER

With its innovative and comprehensive family of products, HumanWare is changing the way vision-impaired people communicate, work and travel. Now with the explorē 8, people with low vision can enjoy all the benefits of a large screen in a compact, portable package, with zero compromise on style, quality and comfort.

Find out more about what the explorē 8 can do for you.
